

# CONTROL VALVE

Montreal Area / Inside Sales Representative: Industrial Process Automation and Mechanical Equipment Supplier.

A metropolitan Montreal based industrial automation equipment supplier serving the process industries and related consulting engineers in the Province of Quebec and Eastern Ontario is seeking the services of a **Senior Inside Sales Representative**.

We are a leading supplier in the field of industrial instrumentation with a strong focus on the sale as well as the servicing of control valves, safety relief valves and field instruments.

The ideal candidate will possess the following skills and /or experience:

- Instrumentation as well as mechanical aptitudes  
And/or a desire to work in a technical field.
- Customer Service Experience.
- Ability to perform under pressure and with conflicting priorities.
- Comfortable working on project quotations and meeting their dead lines.
- Effective communications skills, both written and verbal, in English and in French.
- Good problem solving & listening skills.
- Good understanding of Microsoft Office applications.
- A D.E.C. in instrumentation will be considered an asset.
